

affairs, especially its cash flow, effectively. It furthermore means that the preparation budgets could be seen as fruitless expenditure as it is not used as a tool to continuously measure performance of the various departments as intended. Significant variances would only become evident at year end when it would be too late to address and/or rectify any significant over expenditure.

- Poor revenue control and the inability to improve collections is a huge concern. A workshop to improve debt collection was held with all stakeholders and the audit committee is optimistically awaiting the results of this initiative.
- Poor management of bad debts.
- Arrear councillors; service accounts. Council should lead by example and at all times comply with relevant legislation and aspire to maintain high ethical standards.
- Slow service delivery, to a large extent the result of poor collection of revenue and thus lack of resources.
- Lack of project management capacity and the resultant mal-administration of housing projects, translating into significant financial loss to the municipality that can ill afford it.
- The slow progress in the implementation of an effective Performance Management System.
- The audit committee is aware of investigations currently underway into probable fraud in relation to unauthorised inflated salaries during the month of December 2006 as well as corruption claims in relation to certain housing projects. We are concerned that the current internal control environment would not effectively curb further fraud. All staff needs to buy into a zero tolerance approach against fraud and corruption. Towards this end, we urge Council to adopt an official fraud prevention policy.

Full details of our activities are set out in the minutes of our quarterly audit committee meetings.

Frustrations experienced in executing the committee's duties and responsibilities

The audit committee is hampered in effectively discharging its duties due to the fact that:

- Agendas and meeting 'packs' for audit committee meetings are either not received at all or issued at the last minute, which is completely counter productive.
- It appears as if audit committee meetings are reviewed as a quarterly formality and recommendations of not receive the necessary timeous attention.
- Agendas and minutes of council meetings are not being made available to the audit committee members thus making it impossible for the audit committee to advise and guide council on a range of issues as stipulated in section 166(2)(a) of the MFMA.

For audit committee meetings not to become fruitless expenditure, the members are adamant that its recommendations be implemented as far as possible for meaningful improvement to be attained.

Conclusion

In conclusion, the audit committee would like to acknowledge the co-operation and support it received from the internal auditors as well as the management of Koukamma Municipality.
